- ☒ We save time and money by solving the right issue
- ☒ We use reliable data to minimize risks
- ☒ We avoid costly actions based on hearsay or opinions
- ☒ We improve the quality of our decisions

WHAT IT MEANS

I ANALYZE RISKS USING A FACT-BASED APPROACH TO INCREASE THE ODDS OF SUCCESS

As a Manager

I gather key facts and evidence, clarify major risks, and conduct thorough analysis to make fact-based decisions.

As a Team Member

I gather reliable data, share risk analysis, and propose action plans to manage the issue.

DO'S

Ask open questions to get the full picture.

Get reliable data from the right source.

Check the evidence supports the conclusions.

Identify the root cause of potential issues.

Study the facts before rejecting a new idea.

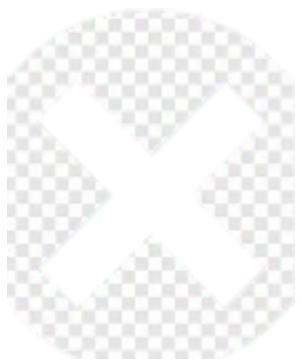

DON'TS

Jump to conclusions without verifying the evidence.

Dismiss data that contradicts your own view.

Stop looking for evidence when it's hard to find.

Hold fixed points of view based on experience.

Stick to a solution just because it's familiar.
